

Harvest NOW Inc. Preaching the gospel to the nations

It has been two weeks since we returned from one of the most fruitful trips to India and the Himalayas. We preached and ministered to 1,745 pastors, evangelists, missionaries and others who are spreading the gospel in some of the most unreached regions. They were greatly encouraged in our meetings. Every life was touched by the power of God. There were also a lot of healings among the people as we preached the Word of God and blessed the people.

Over many years- by the efforts of our missionaries, pastors and you- Harvest NOW has planted 275 churches in different parts of India. Our journey to visit and pastor some of these churches was long and very difficult as we drove thousands of miles on Indian roads. The roads in India have countless potholes and craters, steep cliffs winding up the mountains, and vehicles lack proper air conditioning—sending in clouds of dust and pollution. But God saw us through and we safely reached the people of the Himalayas.

Christmas is around the corner, and we are again helping the children in Asia. We will have Christmas productions, services, and over 80 outreaches to poor communities. Many are in need of shoes, clothes, and schoolbooks. A mere \$2 can pay for a pair of sandals to protect their bare feet. Celebrate this season with the joy of giving and knowing you make a difference.

Thank you for everything you do. It means much when people like you help us reach the unreached and tell the untold.
