

*An apostolic ministry to the nations*

Lisa and Isabella with the orphans in India

Last month Lisa and our daughter Isabella ministered in our children's home in West Bengal. The children were very happy to receive their love and teaching from the Word of God. The children learned many new songs and new games. Each child was deeply touched by the Lord as they received prayer and were anointed with oil. Your prayer and financial support make a vital difference in the lives of these children.

Pastors, leaders and ministers of the gospel came from many different parts of India for this special conference to learn and to be refreshed. Worship and praise was a very important part of the meetings. After hearing the word of God and receiving prayer, people were healed, set free and ready for a new level in God. India's population now stands to 1.2 billion people. Only 2.3 percent people are Christians. Please be praying for a greater breakthrough in India as we continue to train and preach the gospel.
