

Taking the gospel to the nations ..

*Report from "Times of Refreshing" in India*

Pastors, leaders and ministers of the gospel came from many different parts of India for this special conference to learn and to be refreshed. Worship and praise was a very important part of the meetings. After hearing the word of God and receiving prayer, people were healed, set free and ready for a new level in God.

In the conference, ministers came together in unity to intercede before the Lord for the salvation of their nation. India's population now stands at 1.2 billion. Only 2.3 percent people are Christians. We believe that prayer is the key for the healing of this nation. Thank you for standing with us for a greater breakthrough in India as we continue to train and preach the gospel.
