

Harvest NOW missionaries in Asia are preaching the gospel, healing the sick, making disciples and planting local churches every single day.

Harvest NOW Inc.

Asia's 3.5 billion people are bound in religion, superstition and idolatry. Each nation and people group is identified by their own language, culture and ways of worship. Every ethnicity searches to find the true God and invent ways to attain salvation. Our teams of missionaries, evangelists and pastors are travelling daily ministering to cities, towns and villages. They live to bring the good news of Christ to those that are the most unreached in our generation.

In Asia after a person accepts Christ, they suffer much persecution and rejection from their own families and community. Many are kicked out of their homes and are told never to return home again.

It has become the responsibility of our missionaries and local pastors to provide a place to stay, helping the new believer grow in their new-found faith.

Each month Harvest NOW Provides food, clothes, education and above all the love of Jesus to thousands of children in Asia.

Baptizing a new believer
